RHODE ISLAND SCHOOL OF DESIGN
THE CLASS OF 1997

TO THE CLASS OF 1997

And we, who have made it this far,
achieving a name from meager beginnings,
we will spread these new wings,
finally to fly and soar through the clouds
with RISD diplomas in mouths.

We studied with teachers
and learned from our peers
casting off high school annoyance and fears,
We pushed on our minds
and pulled out paradigms.

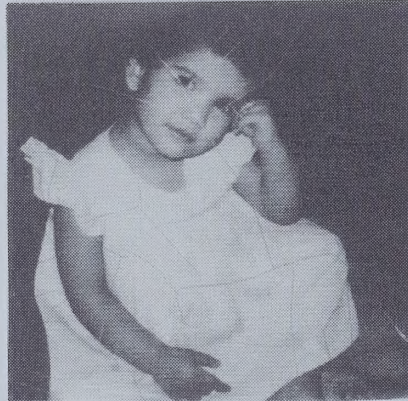

We weathered the gray
looking to tempered May
and now here are the faces,
an eternal oasis,
marking brief time
and experience made;

Good luck
And I hope that you're glad that you stayed.

I want to thank my family (mom, dad, Maria, Justin) for always supporting me and my dreams. I never could have gotten this far if it weren't for you. Thank you, my baby, Lamar for always understanding and being there for me over time and distance. There would have never been a me if it weren't for us. I love you always. You, my girl, be strong and follow your mind I always knew you could do it. There is so much you have added to my life. From the B to the P, We'll always find each other. Annette, I don't know what I would do without you. We made it and we are coming back! Four years of this...it better be worth it. Stay strong and "keep the faith". Thanks to all those who helped me "keep my faith" here, you know who y'all are. Thanks to everything and everyone who has positively influenced me and allowed me to be who I am. I Knew Her

At a gallery opening:
electric ideas surged
from her paintings,
danced enticingly
between figures. Raw emotions
clung to the walls
and invited me in hypnotically.
I was given my first intimate taste
of a pungent female power
which pervaded the room
purely, nakedly;
a passion not revealed in the conservative attire,
the soft, polite voice.

Saturday nights at Margaritas:
she always smelled red on those nights---
bold, almost haughty, electric red, and
ripe as a tomato dangling from its stem in mid-July.
She tossed anecdotes back with a dry gin,
made the men around her froth,
straddled the stool like a seasoned rider.
Rarely did she leave unaccompanied.

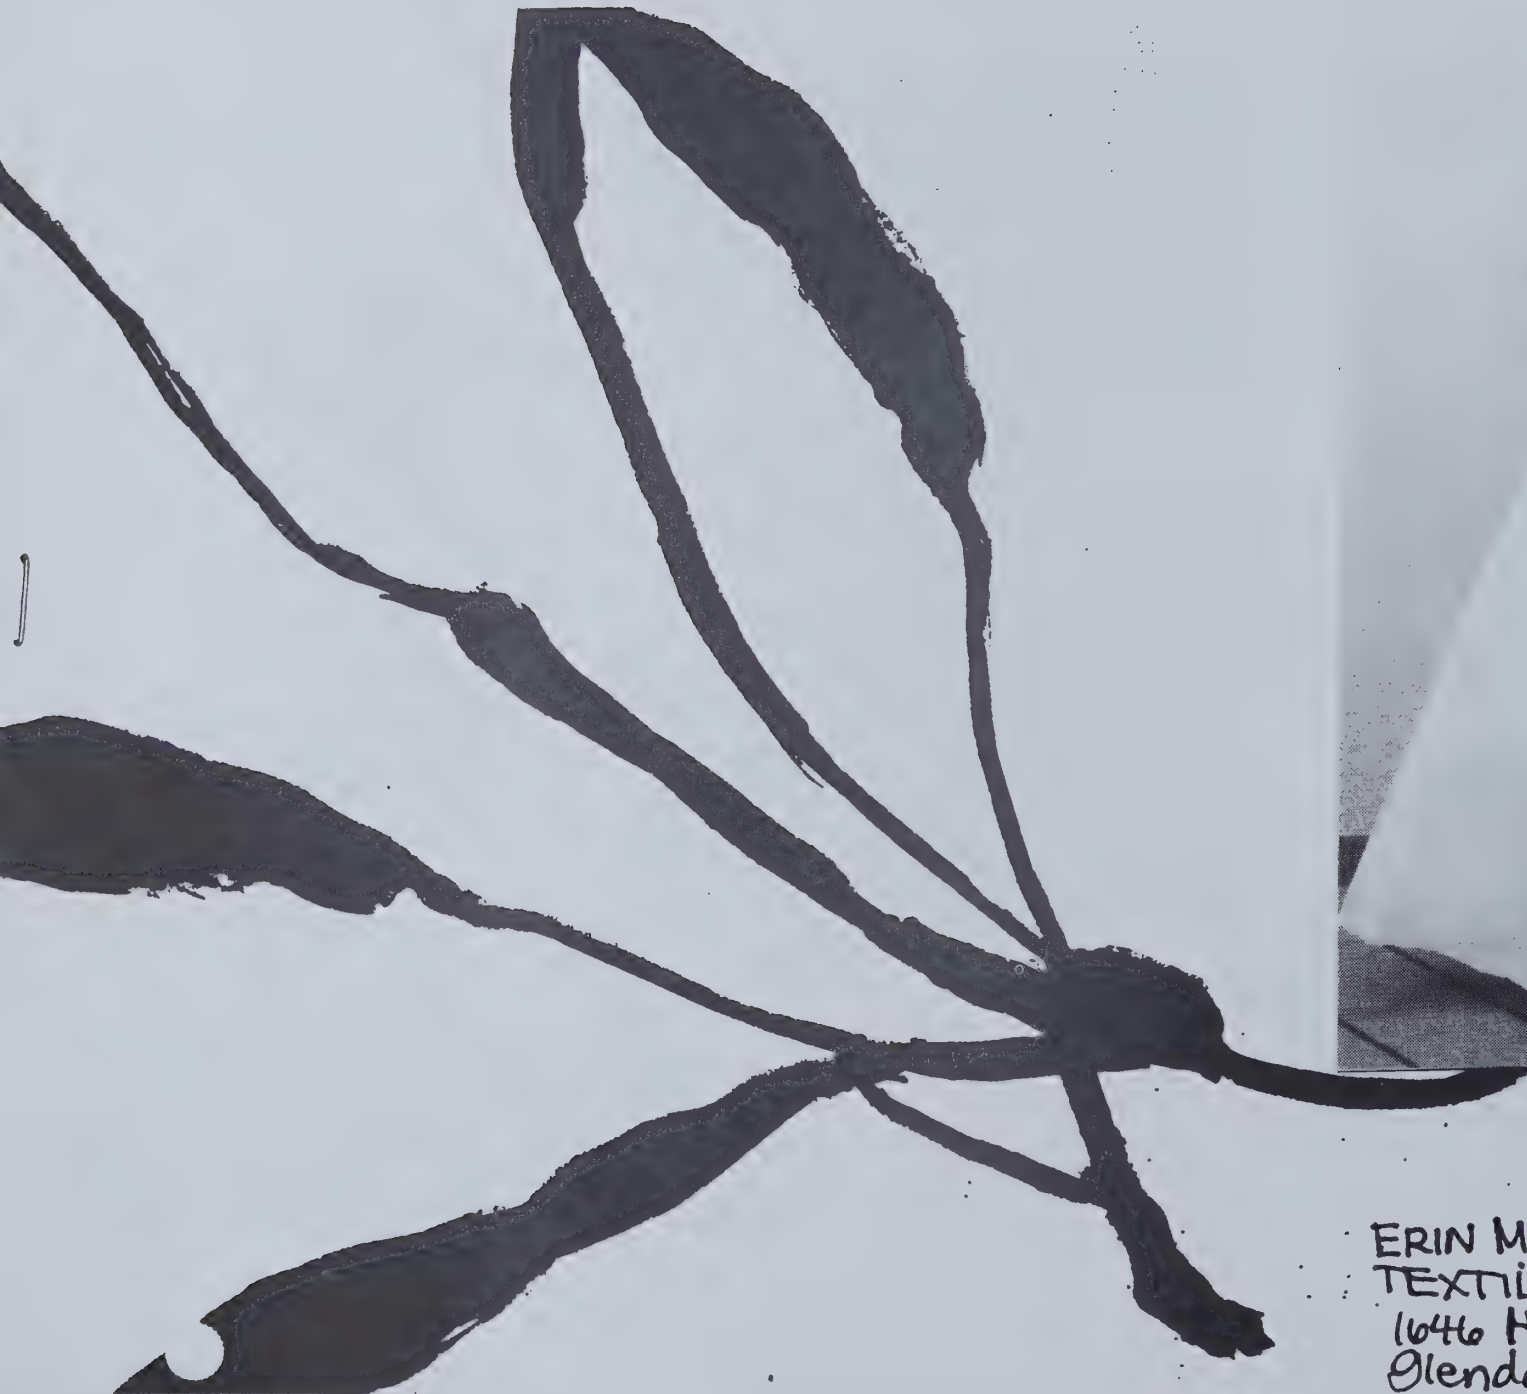

Out of curiosity
and a bit of innocent voyeurism,
I once watched her leave the bar
to go skinny-dipping alone.
And I began to understand who
she was, underneath.
Though she constantly draped herself with people,
she ultimately stood alone.

I had never actually met this woman, though
I did know her, that mysterious one
who was able to maintain,
to balance the two opposing images.

des cellules, continue la maladie dans la chaîne cellulaire qui l'appelle, la détermine et la continuera jusqu'à ce que l'unité nerveuse soit refaite.

L'organisme se tient en santé par le système nerveux, se tient malade par le même système nerveux.

Je montrerais, par l'observation clinique, que l'évolution morbide se fait avec la plus grande uniformité avec une parfaite indépendance de la maladie, qu'elle que soit.

Il n'est pas un accident fâcheux, sans lien avec la maladie d'ordinaire, toute maladie est appelée par la production d'une lésion, et pas un début, et en conséquence, toutes les maladies, toujours dues à la cellule nerveuse.

Je présenterai d'abord les observations cliniques des maladies pathologiques par la maladie, elles sont très nombreuses ; cette série de maladies peut occuper toute la vie de l'individu, toujours dues à l'initiation cellulaire ; la maladie due à la maladie ne reste pas un fait localisé ; la cellule de la maladie s'appelle la cellule initiatrice ; les autres cellules s'appellent les cellules satellites.

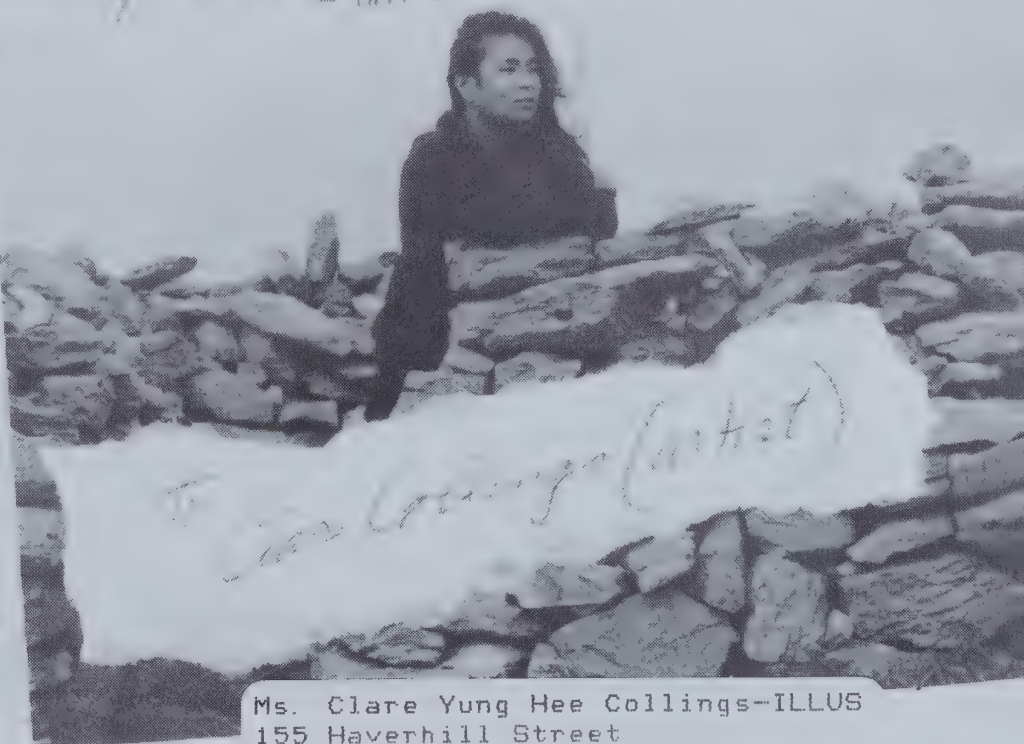

Je montrerais que la maladie est une lésion cellulaire que nous appelons la maladie, elle peut venir de la suite des affections d'origine métabolique, mais elle peut être produite par l'initiation d'une cellule, et elle peut être suivie d'une lésion d'origine métabolique, mais elle est produite par la cellule initiatrice, les cellules satellites de la cellule initiatrice, leur enclenchement autour.

Je montrerais que la maladie est une lésion cellulaire, et que l'entrevue l'évolution morbide se fait par la chaîne cellulaire qui l'appelle, la détermine et la continuera jusqu'à ce que l'unité nerveuse soit refaite.

for the In-Space-Botanical
Project.

M. Carl- Tower;... AAH... We switched
the seeds... We have a small
deal to make with some distant
friends on I.O.; Fuck off,
Tower.

Tower- How do you bumbalah fucks
expect to get back!?

M. Carl- It's a room and board
exchange. We're going to
continue the botanical project
there. It's a life + time contract.
We're switching to zero
communication, ... and, ... Fuck
off, Tower.

HELL, I BELIEVE I AM.

How do I sum up my RISD career? Well, as I once told a professor, I used to get in trouble for making collages instead of doing homework; now I make collages for homework. Being a second-generation RISD alum makes me quite proud (will there be a third?!). Now I'm off to San Francisco, but will never forget the fantastic friends I've made here. From what I've heard, the "real world" is a lot less stressful than RISD!

*It's been a long time that I've been answering
"I'm a student" when people asked me what
I was doing. But now I'm finally out of school.
That's all I've been thinking about for months.*

*I thought I couldn't wait to get out.
It's strange that I've started to feel a bit
empty all of a sudden. I guess I will miss RISD
and my school days.*

*I here thank all the people who helped me to
get through this... especially, my parents.*

"I believe that for his escape he took advantage of the migration of a flock of wild birds. On the morning of his departure he put his planet in perfect order.

He carefully cleaned out his active volcanoes. He possessed two active volcanoes; and they were very convenient for heating his breakfast

in the morning. He also had one volcano that was extinct. But, as he said, 'One never knows!' So he cleaned

out the extinct volcano, too. If they are well cleaned out volcanoes burn slowly and steadily, without any eruptions. Volcanic eruptions are like fire in a chimney.

On our Earth we are obviously much too small to clean out our volcanoes. That is why they bring no end of trouble upon us."

The Philosopher's Stone!

The Master Key!

The Key which throws wide the doors which seems to bar men from the Treasure house of Nature!

The Key with which many are converting Loss into Gain! Fear into Joy! Hope into Fruition!

The Key with which many are finding Health, Wealth, Courage, and Power!

The Key which thrills, Fascinates, carries Conviction, Understanding, Perception, and Inspiration!

The Keys for Which the Ancient Alchemists Vainly Searched, The Key Which Transmutes...

Gold in the Hand!

The Evidence is FREE!

You Will Enjoy It.
You Will Welcome It.
It will bring you all that is best and most beautiful in life because it is attuned to higher things.

You Will Profit By It.

EVIDENCE:

The word Evidence, in its legal acceptance, includes all the means by which any alleged matter of fact, the truth of which is submitted to investigation, is established.

EVIDENCE is not a statement of truth, but proof of the truth of a statement.

I ENTERED WITH A FEW THINGS THAT I CARE TO REMEMBER...

... A SQUIRREL-TAILED CAT, A REALLY GOOD PAIR OF BOOTS, AND A BIKE.

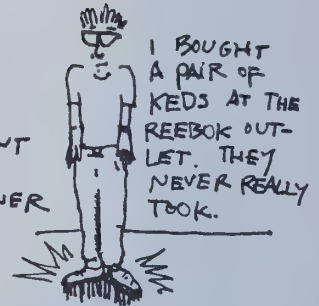

(THE BIKE WAS STOLEN TWO WEEKS LATER.)

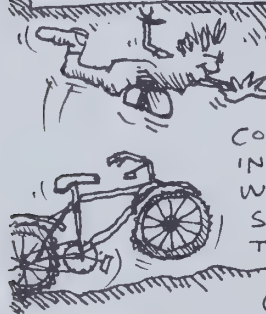

WILLIS CIRCA FALL '93

THE CAT, WILLIS, LOST HIS HAIR IN AN INCIDENT INVOLVING PAINT THINNER AND THE UPSTAIRS KITTY.

I BOUGHT A PAIR OF KEDS AT THE REEBOK OUT-LET. THEY NEVER REALLY TOOK.

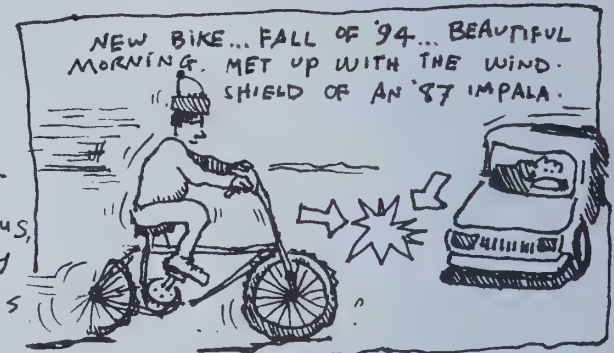

INHERITED AN OLD BIKE FROM MY ROOMMATE, COLIN. WHEN CLIMBING HILLS, THE GEARS WOULD OFTEN SLIP, SENDING ME OVER THE HANDLE BARS. OTHERWISE, A GREAT BIKE.

WILLIS, NEWLY-HAIRED, CONTINUED TO SUFFER ODD ACCIDENTS.

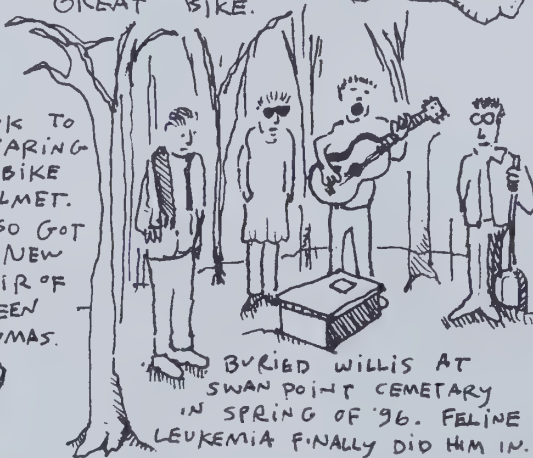

HE APPEARED AFTER A SHORT ABSENCE WITH A MYSTERIOUS, PERFECTLY ROUND HOLE IN HIS HEAD.

NEW BIKE... FALL OF '94... BEAUTIFUL MORNING. MET UP WITH THE WIND-SHIELD OF AN '87 IMPALA.

TOOK TO WEARING A BIKE HELMET. ALSO GOT A NEW PAIR OF GREEN PUMAS.

BURIED WILLIS AT SWAN POINT CEMETARY IN SPRING OF '96. FELINE LEUKEMIA FINALLY DID HIM IN.

STILL HAVE THE BOOTS.

I'M OUTTA HERE. BYE.

The pages of this yearbook
were printed on Hammermill
80lb text weight paper.
The cover was printed on
Hammermill 100lb
Coverstock.

The type used on the
student pages was composed
on a LG08+ Printronics
Printer, model #p300.

The type used in the index
is OCR-B, designed by
Adrian Frutiger in 1965
for the European Computer
Manufacturers'
Association. It is known
for its clean, modern look
in addition to being
highly legible among
mechanical devices. It was
composed by Cyrus
Highsmith on a Macintosh
Quadra 800 using Quark
Xpress 3.3.

Printed by Sir Speedy at
827 Boylston Street in
Boston, Massachusetts.
